Description

Hop Pellets are produced from raw hops and can be added to the kettle to provide bitterness and a hop character that is indistinguishable from that achieved using raw hops. Hop Pellets provide improved homogeneity, better storage stability and reduced storage/transport costs compared to raw hops.

Storage

Hop Pellets should be stored cool at 0 – 5 °C (32 - 41 °F). Pellets are best used within 3 years after processing. If stored at –20 °C (-4 °F), pellets should be used within 5 years. Foils, once opened, use within a few days.

Chemical Analysis

Characteristic	Analysis Result	Method
Alpha Acids	13.8 %	ASBC Spectrophotometric
Beta Acids	3.2 %	ASBC Spectrophotometric
HSI	0.281	ASBC Spectrophotometric
Oil Content	2.1 ml/100g.	ASBC Hops - 13
Moisture	8.4 %	ASBC Hops - 4C

Pesticide residues are monitored in hop products under our new BarthHaas Quality Control Guarantee.
