

ADEENA[®]

ADHA 1940

Adeena[®] ADHA 1940 was commercially released by the Association for the Development of Hop Agronomy (ADHA) in 2020. This cultivar is the progeny of a Summit female and an ADHA 34/95/57 c.v. male. Agronomically, Adeena was selected for its excellent yields, disease, and pest resistance. Adeena is described as bringing gentle, delicate, and New World noble flavors to beer.
