

INTRODUCING
100% HOP DERIVED

Quantum
SERIES

Applying our knowledge and proprietary technologies, we are proud to introduce our 100% hop derived **Quantum Series™** whirlpool aroma extract and dry hop aroma liquid or powder sourced from live (fresh frozen) or cured (kilned) hops. Unlike the traditional CO2 extraction process, our unique and proprietary extraction technology preserves the aromatic compounds in a far superior manner resulting in a more robust, intense and complex hop aroma extract and oils.
