

**INTRODUCING
HOP-DERIVED** *Quantum*
SERIES

An evolutionary leap forward in aroma and brewing efficiency.

The Quantum Series is a suite of **hop-derived, varietal-specific** solutions utilizing our innovative, ultra-low temp extraction technology to create the **finest, most aromatic hop extracts** on the market.

Unlike CO2 processing, which has been optimized for the extraction of alpha at the expense of aromatics, our Quantum process has been **designed from the ground up to preserve the most volatile aromatics.**
