2023

Manufacturing entity  
HOPFENVEREDLUNG

Product  
Hop Pellets Type 90

Best Before Date  
10.01.2027

## DESCRIPTION

Hop Pellets are a hop product added to the kettle to provide bitterness and a hop character that is indistinguishable from that achieved using raw hops. They can also be used post fermentation for dry hopping. Pellets provide improved homogeneity, better storage stability and reduced storage/transport costs compared to raw hops. Supported by a long history of safe use in brewing, and in accordance with US FDA regulation 21 CFR 170.30(c) and 170.3(f), hop pellets are generally recognized as safe (GRAS).

## STORAGE

Hop Pellets should be stored cool at 0 - 5 °C (32 - 41 °F).

## CHEMICAL ANALYSIS

Analysis Method	ASBC spectro	Analysis Date	10.01.2024
Alpha acids	2,10 %		
Beta Acids	4,10 %		
Hop Storage Index	0,43		
Water content	7,90 %	EBC 7.2	
Oil volumetric	0,70 ml/100g	EBC 7.10
