

# CERTIFICATE OF ANALYSIS

Variety GBX FUG      Batch No. 90-24-077/GBX      Crop 2024      Manufacturing entity HAYLE FARM HORSMONDEN

Product Hop Pellets Type 90      Best Before Date 23.01.2030

## DESCRIPTION

Hop Pellets are a hop product added to the kettle to provide bitterness and a hop character that is indistinguishable from that achieved using raw hops. They can also be used post fermentation for dry hopping. Pellets provide improved homogeneity, better storage stability and reduced storage/transport costs compared to raw hops. Supported by a long history of safe use in brewing, and in accordance with US FDA regulation 21 CFR 170.30(c) and 170.3(f), hop pellets are generally recognized as safe (GRAS).

## STORAGE

Hop Pellets should be stored cool at 0 – 5 °C (32 - 41 °F).

## CHEMICAL ANALYSIS

Analysis Method	ASBC spectro	Analysis Date	23.01.2025
Alpha acids	6,60 %		
Oil volumetric	0,55 ml/100g	EBC 7.10	

These hops have been tested in the framework of the BarthHaas Quality Control Guarantee and comply with the residue limits of the country of destination.
